

## **Club Sports – COVID-19 Response Plan – University of Arkansas**

### **Bass Fishing**

#### **Practices**

- We have made it a point to practice social distancing when possible, wash our hands frequently, and wear mask or neck buffs.
- All of our members know how serious we have to take this and are willing to work hard to ensure we get to fish this semester.
- Overall this semester will be a tough one for all club sports, but as the Bass fishing team we are never in huge groups, or really close to one another.
- We will take the necessary precautions and follow the rules.

#### **Competition**

- This semester with all the regulations many tournaments have been cancelled, and several students have decided not to fish.

#### **Recruiting/Retention**

- Our recruitment is 100% online over Zoom, here we will be able to talk to the new recruits and ensure they too are familiar with our rules as COVID-19 continues.
- This semester we are not requiring full dues. New members may be responsible for dues but continuing members paid dues last year and did not get to fish.
  - If you paid dues last semester and were unable to participate in in-person activities you will not have to renew them.
